REDEFINING WALLS AS ART

ROLLOUT IS AN INTERNATIONALLY ACCLAIMED CUSTOM WALLPAPER COMPANY

Established in 2005, it began with a vision to elevate wallpaper beyond the functional and into the spotlight of interior design.

Continually reinterpreting large-scale artistic expressions on paper, the Rollout studio draws inspiration from many visual forms – from experimental street art and photographic imagery to abstract painting and surface explorations.

Manufactured in both Canada and the US, Rollout operates without borders, championing the creative talents of artists and designers from across the globe. Its patterns and murals are original works of art, hand-produced and then digitized before finding homes in virtually any setting in the world, including hotels, restaurants, offices, showrooms, and more. At Rollout, our walls – made by humans and emotive – bring us together.

GABRIELLE LASPORTE – THE ART OF EMOTIONAL LIBERATION

Rollout proudly presents a new collection by multidisciplinary artist and creative designer, Gabrielle Lasporte.

Lasporte's intriguing linework, expressive colouring, and uncommon batik methods have created a collection of patterns and murals that is personal and abstract, thought-provoking, and energizing. Celebrating the theme of Emotional Liberation, her illustration practice has produced a catalogue of digitally stylized leaves and fronds thoughtfully arranged into playful geometric conversations.

Batik is Lasporte's preferred method. Known to have originated in Java over 2000 years ago and with influences worldwide, batik is a wax-resist dyeing technique where artisans apply wax to specific areas of fabric to resist dye absorption, resulting in intricate, patterned effects. Produced in her Toronto studio, amid the colourful splatter and speckle of fabric dyes, her soulful and soothing shapes – photographed and then digitized – coalesce into undulating abstractions. Enjoy!

“Gabrielle’s art is her strength in showing vulnerability to the universe and laughing and dancing through it all. Her work reflects the presence she exudes – gracefully holding it all together and letting it all fall apart at the same time.”
